Report of Library Trustees

To the Citizens of Rye:

Through various acquisitions noted in the librarian's report the reference department of the Library has been strengthened during the year.

The building is in excellent repair. The exterior woodwork was painted in the autumn. Further improvement was made by the town in a strip of lawn outside the sidewalk, the curbing for which was financed by Mr. and Mrs. Justin Hartford.

A gift from Mr. Abbot Drake of a portfolio of reproductions in color of famous paintings is an important addition to the art collection already started.

In September, Mr. Thomas Rand submitted his resignation as janitor, which was accepted with regret by the trustees. Mr. Norman Jenness was chosen as Mr. Rand's successor in this position.

The fact noted in previous reports that the Library is fast outgrowing its present facilities is in accord with the experience of other communities where buildings designed twenty-five or more years ago are no longer adequate to meet the requirements of a growing town. For the present, the problem can be met by a more complete utilization of existing space. Increased endowment and a larger annual appropriation, however, are needed if the Library is to improve and enhance its service to the community.

HELEN F. PHILBRICK,
WILLIAM H. LOCKE,
JOHN E. ANTHERS,

Library Trustees.

February 6, 1941.

Report of Librarian

To the Trustees of the Rye Public Library:

During the past year 18,200 books were put in circulation, a decrease from last year's output of over 8,000 books. There are several possible explanations for this, but I think the principal one being the Relief Work activities. However, the month of January brought a return to normal circulation.

The total number of volumes owned remains the same as last year in view of the fact that there have been so many discarded volumes, principally among boys' and girls' books and classified books outmoted.

We welcome all gifts of books made us and as usual, publicly acknowledge gifts from the following who gave more than ten books.

Mr. and Mrs. Paul H. Bonner
Mr. and Mrs. Justin D. Hartford
Mr. Archibald Wakefield
Mrs. John Fernald
Miss Josephine How
Mrs. Edward S. Sawyer
Mrs. Henry Perry
Mrs. Haddon H. Hooper

Owing to the crowded conditions in the stack room, it is not easy to bring to borrower's notice, all new additions. This year three outstanding collections were purchased. First, a set of fine volumes for the Reference Department. The Dictionary of American history, a splendid set giving brief, specific facts in American History. The editor in chief of this set is James Truslow Adams.

Second, The Junior Book Shelf, a collection of 15 books containing stories about the children of other countries.

Third, Manners and Customs, a new pictorial work edited by J. A. Hammerton.

For books kept overtime, fines to the amount of \$14.75 have been taken in. With the exception of three dollars, this money has bought desk and book supplies.

The reading tables are supplied with the same magazines, and these are circulated for a fourteen-day period, the same as the books. For the information of new families, they are welcome to make use of the Library and may have a card upon application to the Librarian.

The Library is open on Wednesdays and Saturdays from 2:00 to 9:00 P. M.

Respectfully submitted,

HELEN C. DRAKE,

Librarian.

Report of Trustees of Trust Funds

To the Citizens of Rye:

There have been established during the year six new trusts of the aggregate value of two thousand dollars. The income from five of these funds is applicable to the care and maintenance of cemetery lots. It should be of particular interest to all our people that a bequest of one thousand dollars has just recently been added to the library endowment. It is also of interest that additions have been made to the principal of several cemetery trusts in order that a larger income may be available for yearly care.

During the twelve months more of the Dalton Fund investment issues have been called, a continuation of the trend of recent years. The principal of such funds, as well as all new monies received, have been deposited in New Hampshire savings banks. The trustees now have nine thousand dollars in savings banks paying annual dividends at the rate of two and one-half percent., and more than eighteen thousand dollars of principal in savings banks paying but two percent. Until there is a change in present investment conditions or some legislative amendment to the law which now definitely limits the authorized investments for trust funds the present annual diminution in rate of income will probably continue.

The cemetery trustees have had a masonry wall constructed on the boundary between the Congregational Church and the Parsons Addition to Central Cemetery.

SHIRLEY S. PHILBRICK,
AGNES M. BROWN,
ELDRED W. MARSHALL,

Trustees of Trust Funds.

February 1, 1941.

Report of the School Board

The school board respectfully submits the following report: During the summer of 1940 several needed repairs were made to the building.

When school opened in September we found there was such an increase in the registration that grades three and four had to be separated, and because no other room was available grade three has had to use one half of the auditorium for a class room. This has been very unsatisfactory for every one because while the third grade is trying to have its lessons some other grade may be having its music lesson in the other half and every noon there is the commotion of setting up the lunch tables. This has been most inconvenient for the hot lunch period because there cannot be tables enough set up for all the pupils who carry their lunch and have the hot lunch. The older ones have had to eat in their home room. Of course this makes more work for both teachers and janitor.

Next year it will be advisable to separate grades five and six but unless we can have an addition to the school house it cannot be done, for lack of room.

According to your vote at the school meeting last year we have a plan for a four-room addition. With the increase in valuation it seems likely that a bond issue to cover this would not increase the tax rate at all and for the efficiency of the school we hope you will vote for this addition.

We again want to thank the P. T. A., Red Cross, and various clubs who are so loyal to our school and do so much for it.

We hope you all saw the lovely Christmas window our art teacher and the pupils arranged, and we want to thank the Electric Power Company for their kindness in properly lighting it.

ELIZABETH M. MARDEN,
ETHEL M. PHILBRICK,
EDGAR J. BLANCHARD,

School Board of Rye.

Report of the Superintendent of Schools

To the School Board of Rye:

I have the honor to submit herewith my eleventh report as superintendent of your schools:

The seacoast region of New Hampshire yearly attracts thousands of people to its shores. The war situation brings many others to these communities. The natural attractiveness of the locality causes many people to build here and become a part of the community life. This is all as it should be. Along with other institutions, the schools reflect this growth of the community. Housing, equipment, supplies and services which were entirely satisfactory when the school district was smaller will prove more and more inadequate as school population increases. Rye seems to be affected by this situation to the extent that a formerly satisfactory staff of six teachers must next year consist of nine. A school building, large enough three years ago, is this year inadequate. For this reason, the school board is presenting to the people of the school district of Rye, a plan for enlarging the school house. This plan, a four-room addition on the south side of the building, will be subject to discussion by the people of the district at the annual school meeting. The fact that recent building in the district has materially increased the valuation, makes possible the proposed addition without increasing the debt limit of the district and with little or no increase in tax rate.

With the new wing we shall again be able to use the assembly-gymnasium for physical training, school assemblies and club activities. These constitute a valuable and vital part of today's education. Better rooms and equipment for Home Economics work, an adequate manual training laboratory and a modern elementary science department are planned. Elementary Science is becoming continually more important as the key subject of the work for the upper grades. This subject

•

is rapidly outgrowing the text book stage and entering adulthood as a laboratory course. It is entitled to adequate treatment.

The school of America has always taught democracy. It has taught democracy by its practice of equality for all—ability alone distinguishing one pupil's place from that of his fellows. It has taught democracy by studying stories of great heroes, by learning the great truths which controlled the lives of these heroes. It has taught democracy by implanting in the young minds a devout respect for religion and for religious thought. It has, in the later school years, placed the Constitution and the great documents of the democracy as required study. These are but beginnings, however.

When our children leave our schools they will be immediately faced with a conflict of governmental theory. Unless they are thoroughly acquainted with the foundations of democracy they will be confused. Unless they are trained to a deeper consciousness of the privileges and responsibilities of American citizenship, our school will be neglecting its present chief obligation. For this reason we shall ask the support of the citizens for increased emphasis upon certain subjects. There must be more teaching of the resources of our land. There must be more time spent in studying our social relations one with another. Daily it is becoming more important that people know how to live together. There must be a more definite preparation for the skilled trades. We have tended to overemphasize mental skill and disregard manual skill. It is the trained hand that our situation in the present and immediate future demands. The school must help to meet this demand. We must become more definite in our school work. To this end we ask your aid.

Mr. Gray and his staff of teachers are faithfully working for the present and future welfare of our boys and girls. They are a united group working by similar steps toward well recognized goals. Under such a situation the results obtained must be good. It is recommended that this staff be kept as a unit

for as long a time as possible. A real school is composed of teachers and pupils working harmoniously together. This is Rye School.

Once more it is a pleasure to report to you that our graduates are doing creditable work in high school. Fifteen of last year's class continued their formal education. These pupils, according to records received from their schools, earned a total of 110 marks with an average of 82%. Of the 110 marks but six were below passing. But one of these six was in a subject continuing from the Rye School. This record is one valuable check on the effectiveness of the work done by our children.

This year, because of the overcrowded condition of the school, every teacher has been handicapped in her work. For this reason, physical training for which our school is well known, was much curtailed. The work of our school nurse is more important than ever. Her report is included herewith.

Also at a disadvantage was Mr. Wendell Hawkins since but a small part of the auditorium was available. He has given, however, added incentive to the pupils by new music and by the concert in which they took part at Centennial Hall. His work, both in content and in method of presentation, adds to the unity of the entire school.

Mrs. Naves as instructor in art brings valuable contributions to the creative and artistic development of the children under her care. Whether the future shall be one of increased leisure or of fierce struggle against corrupt totalitarian pressure, minds developed in varied fields of learning will be demanded if we are to keep the world sane. Art and music are now more important than ever.

Where there is a helpful and cooperative spirit between parents and teachers, there is a good school. The Parent-Teacher Association is one means by which mutual understanding can be secured. Rye has such an organization. It has helped the school in many ways. It is a comfort to know that such a group of leading citizens is supporting the school in its efforts to more effectively serve our children.

Let me again express my appreciation to the School Board of Rye for their advice and help in the duties of my office. To the teachers and principal my most sincere thanks for an enjoyable year of service with them. While the present standards of teacher employment are maintained there need be no fear as to the standing of the Rye schools.

Respectfully submitted,

ROY W. GILLMORE,

Superintendent of Schools.

Report of School Physician

To the School Board of Rye:

Physical examination of the pupils at the beginning of the school year showed very few defects, aside from those of the teeth which still show that improvement might be made, especially in children between the ages of eight and twelve.

Threat of an epidemic of diphtheria in the early fall was fortunately averted and aside from influenza, which caused many absences, the general health of the children has been good. Parents are urged to guard children against exposure to any known case of contagious disease.

Respectfully submitted,

HERBERT A. WHITE,

School Physician.

School Nurse's Report

To the School Board of Rye:

I hereby submit to you the following report of the health activities completed from January 31, 1940, to January 31, 1941:

Last April and May we conducted our second dental clinic of which I am very proud. The number taking advantage of the clinic seems small but has increased slightly in number over the year previous. When Dr. White conducted the physical examinations he mentioned the improvement in the condition of the teeth which I believe speaks for itself. We hope to continue the clinics and hope that more pupils will take advantage of the opportunity to have their defective teeth corrected at the low clinic rates.

Following is a detailed report of the work done:

Pupils examined	154
Half days spent	9
Dental certificates issued	34
Pupils attending clinic	35
Pupils still needing care	69
Trips made by nurse	7
Trips made by parents	2

Dental Report:

Cleanings	34
Extractions—permanent teeth	3
Extractions—temporary	5
Silver fillings	78
Porcelain fillings	3
Other fillings	17
X-Rays	1
Number of operations	141

(Signed) DR. HAROLD PIERSON.

In June after the close of school the "Summer Round-up" was held at the Center School by the Parent-Teacher Association. I assisted Dr. White with the examination of twenty-one children who came for the pre-school check-up.

During the fall I weighed, measured and did the visual and hearing tests previous to the physical examinations conducted by Dr. White.

Following is a summary of the examinations:

Pupils examined	172
" underweight (5 lbs. or more)	32
" with defective hearing	2 (1 under treatment)
" " " vision	16 (5 corrected)
" " " tonsils	16
" " skin rash	3
" " anaemia	1

Notices of the weights, measures and the physical condition were sent home to the parents of all children examined.

The Home Economics department have served hot lunches at noon to many of the underweight pupils and to many others who cared to take advantage of something hot at mid-day.

The pupils have been examined for vaccination scars and I find all pupils have been successfully vaccinated except six. These have been excused because of physical reasons and certificates or notes of exemption are on file with their health records.

Below is a classification of my activities:

Number of visits to the school	44
" " the home	20
" pupils taken to doctor	3
" " having individual care	15

There have been 35 cases of chicken-pox since my last report.

I wish to express my appreciation to the Red Cross for their interest in the noon lunch program and to the Parent-Teacher Association and the "Every Other Tuesday Club" for their donations and interest in the Dental Clinic.

To Mr. Gillmore, the School Board, Mr. Gray, the staff of the Rye School, Dr. White, and all the parents of the pupils I wish to express my sincere thanks for the splendid cooperation that I have received in my health work.

Respectfully submitted,

ELIZABETH HAY, R. N.,

School Nurse.
